Profile

Computer & Data Science student at Alexandria University, passionate about software engineering, problem-solving, and continuous learning. I enjoy building real-world tech projects and developing skills in software development and data science. Currently exploring internships, bootcamps, and collaborative tech communities to grow and gain experience.

Education

Bachelor's Degree , Faculty of Computer and Data Science, Alexandria University	2024 – Present
Expected Graduation: 2028	Alexandria, Egypt
GPA: 3.95	

Experience

Digital Egypt Pioneers - Android Mobile App Development Track , Ministry of Communications and Information Technology	06/2025 – 12/2025 Alexandria
---	---------------------------------

- Gained hands-on experience in Android app development
- Learned core concepts of mobile UI/UX design and app lifecycle
- Worked on practical projects applying mobile development tools and techniques

Skills

TECHNICAL SKILLS: • Data Science • Programming Languages: Python, Java , Kotlin • Web Development: HTML, CSS • Concepts: Object-Oriented Programming (OOP), Data Structures , Databases : SQL • Android Fundamentals , Jetpack Compose • Machine Learning Basics, Systems Analysis & Design	SOFT SKILLS: • Teamwork • Communication • Time Management

Projects

Movie Discovery App (Android - Kotlin & Jetpack Compose)	10/2025 – 12/2025
• Built an Android app using Kotlin, Jetpack Compose, and TMDB API with MVVM architecture, Kotlin Flow, and a responsive Material Design 3 UI with Dark/Light Mode and real-time search	
Regression	04/2026
• Implemented Linear, Ridge, and Lasso regression from scratch using manual gradient descent in Python, covering the full ML pipeline on real-world datasets	
Data Mining Study	04/2026
• Performed EDA, preprocessing, and feature engineering on a 5000+ row dataset, implementing K-Medoid clustering, Fuzzy Logic, and a Genetic Algorithm	

Machine Learning 	04/2026
• Built an end-to-end ML pipeline from baseline models (Linear Regression, KNN) to advanced ensembles (SVR, Random Forest, Ensemble) with hyperparameter tuning	

Systems Analysis & Design — Online Clinic System 	04/2026
• Produced a full system analysis deliverable (DFDs, UML diagrams, Gantt/PERT charts, feasibility study) for an online clinic system in a team of seven	

E-Commerce System (OOP Project – Java)	03/2025 – 04/2025
Designed a mini e-commerce platform in Java handling products, shopping cart, and order processing using OOP principles	

Course Page Website (Web Project – HTML/CSS)	11/2024 – 12/2024
• Developed a responsive course page using HTML and CSS with a clean layout for displaying course content.	

Certificates

Cloud Foundations  , <i>AWS Academy</i>	04/2026
